March 27, 2018

Dear Parents and Guardians,

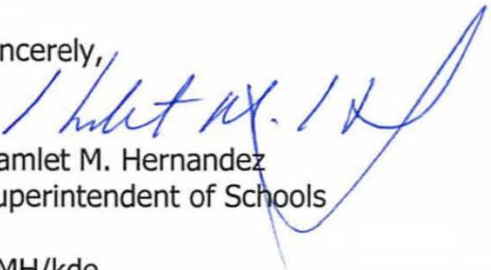

Last week a public information session was held at Walsh Intermediate School to provide an update regarding the construction project. The session also provided an opportunity for the public to ask questions regarding construction related activities. To view the video of this outreach session and Powerpoint presentation please go to www.walshschoolproject.org.

The key points covered at the session were; the temporary parent drop-off and pick-up loop, bus traffic, relocation of the Nurses Office and School Based Health Center, relocation of the reception kiosk, and parking. All of these activities are critical in order for Phase I construction activities to be completed safely.

While this brief letter does not completely capture all of the points discussed at the Public Outreach Session, it does provide an overview of the highlights.

It is our intention to conduct a variety of sessions so the school community is well informed and prepared for the exciting changes planned for the summer of 2018 and the 2018-2019 school year.

Sincerely,

Hamlet M. Hernandez
Superintendent of Schools
