October 3, 2017

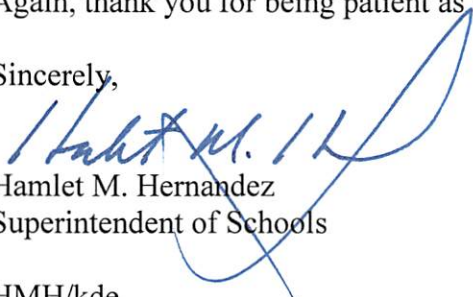

Dear Parents, Guardians and School Community,

On the District's website under the Walsh School Project Website link, you will find a document titled; Medical Aspects of Polychlorinated Biphenyl (PCB) Exposure, prepared by Richard Young, M.D., the School Medical Advisor for Branford Public Schools.

We continue to make progress in addressing the PCB issue at WIS and last week the large gym and locker rooms were opened. Once the District receives the third round of testing from Langan Engineering and Environmental Services, it will be posted to the website.

Again, thank you for being patient as we address this construction related issue.

Sincerely,

Hamlet M. Hernandez
Superintendent of Schools
